PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings grazing and wildlife are destroyed — all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second — by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles — make sure they are out — use your ash tray.

5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

SCHOOL BOARD'S REPORT

There is not too much for the School Board to add to Mr. Hounsell's report.

We would like to add our thanks to all those who have helped to make the Salisbury school system better.

We are grateful to Mr. Hounsell for the time, energy, and advice he has given us. To the three teachers we appreciate beyond words the time and energy they have given in teaching the children to be better citizens.

We would like to add a special thank you to Mr. John Santoro and Mr. & Mrs. Robert Call for their gifts of pianos to the school so that each room now has its own. We are truly grateful to the men who moved these pianos to the school.

The deed for the so called Academy' Hall has been turned over to Bartlett Grange.

You will note in Mr. Hounsell's report a request for a deficiency appropriation and we will try to make the reason for this clear at the budget meeting and the annual meeting.

We have received the 70% from the closed Valley Trust Co. and we hope that the rest of the money will be forth-coming in the near future. However, with a little careful planning this money may be used as an income rather than as cash on hand.

Because the school population has increased so fast in the past two years we feel we should warn you that, as voters, you should keep in mind the possibility of an addition on that building long before it was thought that it would be necessary. As chairman of the school

board I would like to recommend that the school boards of the future and the budget committee look into the possibility of setting up a Capital Reserve fund for a building program. I would recommend a set-up similar to the Capital Reserve Fund the town now has but that a sum be added each year and the interest be allowed to accumulate and added to the principal.

As I retire from the board this year may I add my personal thanks to all who have elected me to the board, to all the board members I have had the privilege of serving with, and to the superintendents and teachers I have been associated with for their understanding, cooperation, and assistance.

Respectfully submitted,

NORMA C. LOVEJOY,
Chairman

REPORT OF THE SUPERINTENDENT OF SCHOOL

To the Salisbury School Board and Citizens of Salisbury:

I am pleased to report to you once again on the condition of your school. Last year I was unable to do so because of a serious automobile accident which occurred in January.

It has been a real source of satisfaction to me to see how Salisbury improved its educational facilities for its children. In addition to providing a new building and consolidating all children in one center, the School Board has added a new teacher, Mrs. Adele Glaubit, to its staff. Increased enrollment, beyond what we anticipated, made this necessary. By erecting a new partition and purchasing new school furniture we equipped a third classroom during this past year. These changes made it possible to have much better conditions for teaching and for the children in attendance.

We have also purchased many new textbooks, which are up to date and contribute much toward better learning conditions.

The school grounds have been graded and the roadway to the building been improved. In the spring, the playground will be equipped with swings and other facilities for the children to use during recess time and at noon after lunch period ends.

For these things we are grateful to those interested parents whose interest and effort made it possible.

Your school budget for next year will be larger than ever before. This is due in part to anticipated in-

creases in high school tuition rates and general costs of materials and services. More children are in school now at both elementary and high school levels, so costs have to go up. There will be a request made for a deficiency appropriation again this year. The money which was unavailable last year in the Valley Trust was arbitrarily taken away by the Tax Commission when the 70% reimbursement made by Concord National Bank became available. The School Board needed this money but did not get it. Now they are asking for a deficiency appropriation again. We trust that the people will approve the request this time.

I want to commend the School Board for their excellent judgment and their exceptional service to the community in providing for the schools the essentials so badly needed. I want also to thank the teachers for their loyalty and outstanding efforts to improve the learning situations for the children. I am grateful for the support of the citizens of Salisbury who are so interested in the schools. All those people who work for better educational opportunities within the community are making a real contribution to the advancement of education.

Respectfully submitted,

WILLIAM B. HOUNSELL
Superintendent of Schools

Subject: State Board of Education Policy Concerning the School Year and the School Day.

During the winter of 1959-1960 a statewide committee appointed by me studied the implications of the law passed by the 1959 General Court requiring that schools be in session 180 classroom days. As a result of the recommendations made by that committee, the State Board of Education at its March, 1960 meeting approved the following policy:

"For the purpose of fulfilling the intent of the 180-day school year law (RSA 189:1 as amended by 1959, 133:1) enacted by the 1959 General Court, the following provisions shall become effective beginning with the 1960-1961 school year:

SCHOOL A division of the school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant, as is the case when the elementary and secondary programs are housed in the same school plant.

SCHOOL YEAR The school year shall consist of a minimum of 180 school days.

SCHOOL DAY A school day is a day when a school is operated for at least the minimum length of time prescribed below exclusive of the lunch period.

Grade One 4½ hours

Grades Two-Eight (Elementary) 5¼ hours

Grades Seven-Twelve (Secondary) 5½ hours

Recess periods may be counted as part of the elementary school day but not as part of the secondary school day. Organized activity periods and home-

room periods are considered a part of the school's instructional program and may be counted.

SHORTENED SCHOOL DAY A shortened school day may be considered a "school day" when the safety, health or welfare of the pupils necessitates operation of the school for less than the minimum time specified above but for a period of not less than 3½ hours.

SCHOOL HALF-DAY A school half-day in the elementary school shall consist of either a regular morning session or a regular afternoon session or the major portion of either.

A school half-day in the secondary school shall consist of either one of the following:

(1) At least one-half of the regularly scheduled periods of a "school day"

or

(2) A minimum of three hours.

Two "school half-days" may be considered a "school day".

(Charles F. Ritch, Jr., Commissioner of Education)
